- 3- Othman Shwani
- 4- Kathrin Kawford
- 5- Ewar Barznji
- 6- Shalaw KOsrat Rasul
- 7- Halat Hamawandi (coordinator)

Chairs Report

For the Rebaz Foundation, this year is a New Year and new experience. Huge works and progress have been seen in the fields of Health and Education, the establishment of the Rebaz Foundation returns to 23 April 2007, as it is permitted by the Ministry of Planning as an International Organization.

The idea of establishing the Foundation raised in 15 September 2006 by a group of young concerned activists in London, the UK.

While I present this report, it is near the first annual anniversary of the establishment of Rebaz Foundation, which began with its work at December 1st 2007. I would like to congratulate those who have helped and supported us financially or by participating in our activities and projects.

It is really important to signify that the establishment of this Foundation played a huge role and had a great impact on the Kurdish community; it was through those works and activities that the foundation had served the Kurdish community in Kurdistan.

Although the Rebaz Foundation was founded under the influence of a British-European system and constitution, it has integrated to Kurdistan and brought new ideas, work and activities into the fields of Health, Education and civic services.

In this report, I would like to briefly shed some light on those aspects that the Rebaz Foundation had worked on and worked for developing them.

1. Participating in the development of the Kurdish community through the projects that have been done. The Foundation has tried to cover more figures as its beneficiaries.
2. Discovering and signifying the problems within both health and education sectors and tried to make projects on the basis of reducing or ending their problems.
3. Serious attempts have been made to create relationships with other organizations, both on local and international level, in order to empower the Kurdish community in matters of relations for the exchange of knowledge and skills.
4. The Rebaz Foundation has tried to make projects in different areas and deliver its services to people as encouragement to other organizations to approach those areas to fulfill their needs.
5. Providing 10 seats in MBA at the American University of Iraq- Sulaimani. The Rebaz Foundation is the first charitable Foundation to make partnership with this University for such a purpose.
6. Providing 20 seats for studying Bachelor degree at Jihan University-Hawler for students in the fields of study (Pharmacy, Law, Accounting, Engineering and IT).
7. Providing entertainment means for young people and opening several awareness and training courses for youth in the cities and towns in Kurdistan.
8. Financial support to students in order to encourage them to complete their education.
9. Rebaz Foundation has continuously worked as an adviser and supporter with regard to other organizations and foundations in Kurdistan.

Hereby would like to thank all members of board of trustees and the staff of Rebaz Foundation for those achievements that the Foundation has accomplished during this year. Also thanks to those who helped and supported us financially; international organization, local organizations and individuals.

Chief of the Board
Darbaz K. Rasul

Coordinator's Report

The Rebaz Foundation started its work 2008. In this year, various projects and activities have been done in the fields of Health, Education and civic resources. The strong relation that the foundation created already from the beginning was a great factor that allowed the Foundation to cover various areas through the worthy projects.

The Rebaz Foundation as an International non-governmental and charitable organization, disregarding political, religious, traditional and social affiliation, has supported the youth of Kurdistan through the various projects. However at the beginning of this year, we needed much time to find a proper place for the office and to bring necessary equipment, but several serious attempts were made to create links with other organizations and making the Foundation familiar to all.

The Rebaz Foundation began its work by employing 7 staff members; administration, finance, project officer, Media relation, program developer and secretary.

The first project of the foundation was huge and worthy one that was a great support for those areas that mostly suffered from Saddams regime; Qadrkaram, Shorsh and Chamchamal. In those areas \$306.000 have been spent to create three modern Tartan soccer fields to fill the spare times of young people and have an positive impact on the sports and youth of those areas.

During the same time Rebaz Foundation distributed several stationeries for the students of Qadrkaram and Galala. Also a providing a 400 KV generator to Sangaw and a 250 KV generator for Qadrkaram.

The main funders of those projects were Dana Gas and Crescent Company.

During this year, despite working on these projects, several training courses were provided for the staff of the Rebaz Foundation in UK and Kurdistan/Iraq.

Through the strong relations that the Foundation made with foreign countries and Foundations, allowed the staff of Rebaz Foundation to participate in the Hiroshima and Nagasaki commemorate day in Japan to give their sympathy to the Japanese nation, as well as showing a documentary exhibition as in which suffers of Halabja and Anfal exterminators was also shown to the presence.

Our foundation's biggest problem was fundraising, even though several good efforts were made to coordinate with foreign fundraising organizations and to get benefit from them, but unfortunately their donation standard was decreased and limited, therefore a lot of problems accrued during the accomplishment of the projects and them having their hidden intentions. Nowadays, fundraising programs has been difficult in the whole world due to the world's economical crunch.

I would like to congratulate the first anniversary of the establishment of Rebaz Foundation to the head of board, its members, all the staff and the volunteers. I would also like to thank the funders and charity sides for their support and cooperation, and those people who have helped and participated in our projects that caused our success.

Coordinator
Halat Hamawandi

Public Relation and Media Representative (Azhi Dler):

He was responsible of managing media works, delivering and announcing the activities of the Foundation to the Kurdish community as well as making relations and organizational links with other sides of the community and mass medias, he started working on 1/3/2008.
