

□ Survey About Health Insurance in Kurdistan Region by Rebaz Foundation- Findings Final Report

A health insurance survey, project and an important step by Rebaz Foundation to improve the health care system in Kurdistan. This tool was deployed for collecting data to have a clear vision for the near future. In the light of that visionary thought, Rebaz Foundation (We) prepared 1000 questionnaire form to conduct a survey in 2 months period in Kurdistan Region, collecting data from almost all sectors in our community. This provides valuable information, opinions, and the understanding of people about Health insurance, while the results of this survey will be available for all concerned parties, Governmental, NGOs, and etc

The following is the outcome of the survey done by Rebaz Foundation on Health Insurance System in Kurdistan. The details and the feedback are evidently illustrated in the attached diagrams:
